Dear Brother

Thou wilt perhaps recollect that I was at thy house last summer, at the sitting of the N^o 2 anti Slavery Convention and gave thee one dollar from Sister Abigail Libby, who died on July 28 following and left two dollars more for the same purpose for thy own individual benefit, I will here state that at her death it was a source of consolation to her, that for the poor Slave she had done what she could. Thy little epistle to her drew tears of sympathy from her eyes.

She likewise left three dollars to be devoted to the antislavery cause in any way I thought best, and I can think of no better way than to take a copy of the Liberator to read and circulate, in order to sustain that paper and true abolition principles,

She left also two dollars for the cause of Peace - for which please send me one year one copy of your nonresistance paper beginning with first number, and the other dollar apply it to the cause of peace as thou shalt think best, I think I shall be enabled to get some subscribers to your nonresistance paper after receiving one or two Nos as the principles take in the minds of a great many with whom I have conversed on the subject. I hope to soon write my own name to the Liberator (as above) simply directed to

Peter Libby Buxton Me^o beginning with the present vol if thou hast the back Nos - The above causes are on the adverse though encountering strong opposition from selfinterest and prejudice and no small amount of it is in the professed Church but it must and will go for good is with us. I rejoice that thou hast thus far retained thine integrity amid thy trials and perils, and that thou mayest endure to the end is the prayer of thine in the truth Peter Libby
